

UPGRADE your existing panel

TAKTIS Touch Screen Technology

Highly Integrated Configurable System

- Network up to 128 panels and Taktis Vision repeaters.
- Ockular colour graphics system.
- Cloud based reporting options.
- Vizulinx - Email, SMS, BMS reporting.
- Flexible touch screen functionality - soft keys, logos, colour and lay out.
- Network options: Fibre - Fibre, Fibre - Copper, Copper - Copper.

Upgrading a site or Installing a fire panel in a new location – think TAKTIS

Flexibility including:

- Wireless translator module on loop to use wireless devices.
- Programmable EOL conventional zones saving costs in finding existing EOL.
- Loop powered sounders with multiple tones allowing AAF, Lockdown & Lockout tones without additional cabling.
- Next generation Hochiki devices on existing loops.
 - Addressable beams
 - 4 I/O loop powered module (single loop address)
 - AS7240.13 VADs
 - Multi tone Sounders.

TS1 panel
for up to 4 loops

TS2 panel
for up to 8 loops

TS3 panel
for up to 16 loops

Taktis Systems currently installed throughout Australia & Globally

2016 - END OF LIFE

NOW

- In 2016, NFP, Firenet and Phoenix Fire panels were issued with their end of life statement by Kidde.
- To provide an upgrade path, Incite Fire working with Hochiki Corporation & Kentec introduced the Syncro AS and Taktis Fire panels.
- By utilising the Syncro AS and Taktis with an existing system, you can cost effectively change out one system to another while progressively upgrading the detectors, as required, to future proof the site.
- Hochiki Australia's Analogue Sensors are certified & conform with AS7240.5, AS7240.7, AS1603.1 or AS1603.2 when connected to Taktis.

Certificate num.	Registration date	Version	Issue date	Valid until	Page 1 of 2
afp - 2014	21-Jul-2008	Number 18	1-May-2020	30-Apr-2021	
Product designation					
Hochiki, Model ALK-AS, photoelectric smoke detector (Refer to the Schedule/enclosures for further specified details)					
Agent/distributor					
Hochiki Australia Pty Ltd 391 Park Road, REGENTS PARK, NSW, AUSTRALIA, 2143					
Registrant					
Hochiki Australia Pty Ltd 391 Park Road, REGENTS PARK, NSW, AUSTRALIA, 2143					
Producer					
Hochiki Corporation 10 - 43, Kamiosaki 2-Chome, SHINAGAWA-KU, TOKYO, JAPAN, 141					
Conformance criteria and evaluation					
The Hochiki, Model ALK-AS, photoelectric smoke detector has been evaluated and verified as conforming with the relevant requirements of the following criteria.					
1. Australian Standard AS 7240.7-2004, 'Fire detection and alarm systems - Part 7: Point-type smoke detectors using scattered light, transmitted light or ionization (ISO 7240-7:2003, MOD)'.					
Limitations/conditions of conformance					
Limitations/conditions of conformance, where identified on this certificate, are derived from qualifications from evaluation(s) for conformity and/or other related technical documentation. All details with respect to design, assembly and installation instructions and restrictions should be checked against the producer's current technical manual/data sheets and the requirements of the Authority having Jurisdiction.					
Specified limitations/conditions, determined from the evaluation for conformity, include the following.					
i. This equipment is specified by the Producer for connection and use only with Fire detection control and indicating equipment (FDCIE) produced and designated as follows.					
<ul style="list-style-type: none"> Kidde Australia Pty Ltd: NFP1, NFP2, Phoenix, FIRENET Kentec Electronics Ltd: Taktis, Syncro AS
